hire
offered
for short
and long-term
periods*

This incredible ride features 16 outward-facing spinning and free looping seats as well as swinging 24 metres over the top in a 360° action, allowing passengers to experience both a weightless sensation and forces of 4.5g - unbelievable dynamics that offer unrivaled thrills!

The ride has adopted a menacing industrial theme which really makes it stand out from the crowd.

WHY CHOOSE ATMOSFEAR?

In 2012, Better Rides were the first operator to bring the Loop Fighter by Italian manufacturers 'Technical Park' to the UK. Since its debut AtmosFear has accumulated a firm fan base, with many event-goers not content with just one ride... they ride again and again and again! Some dedicated fans even travel many miles just for their "AtmosFear fix"! It is this repeat custom and loyal following that show that AtmosFear is quite possibly the most exciting mobile attraction around.

CORONAVIRUS & SOCIAL DISTANCING

As an outdoor attraction, we are in an inherently good position to avoid the passing of the virus from person to person. However, we also implement other practices to keep infection risk to an absolute minimum, such as: Social distancing, face coverings, hand sanitiser stations, frequent cleaning of touch points, disinfection of the passenger restraints, contactless payments, NHS track and trace check-in and on-going risk assessments.
